EVA PRESENTS... UTTERLY BRILLIANT BOOBS!

A top-heavy collection of the most fantastic boobs on the planet!

If there's one thing we know about here at *Nuts*, it's women – and, more importantly, boobs. They're great! So, let's stop messing around and get on with a round-up of our top chests from recent times. And where better to start than with the Polish bombshell Eva...➡

EVA!

Dzien dobry seksualna kotka! [Good day sex kitten!] Sorry? **Er... [louder this time] Dzien dobry seksualna kotka!** Ha-ha!

Why are you laughing? I understand now but you have it a bit wrong. You just called me a sex cat!

Oh, sorry. That's why we failed foreign languages at school. We'll stick to English. You're presenting yet another big boob special. Will men ever get bored of boobs? No. As long as women have boobs, men won't get bored of them.

If we stole your boobs and replaced them with another pair, whose would you want? A slightly smaller pair, so probably Rosie Jones'. Her boobs feel so good, I'd like them.

Why do you think blokes prefer bigger ones? I don't think they do. I think men just prefer any boobs!

If you had to make a cast of your boobs with food, what food would you choose? I'd make them out of chocolate because there'd be a lot of it and I could eat it then as well. I could even fill them with cream!

When you're not modelling, what do you get up to? I enjoy cooking and don't mind saying I'm a good chef. I also drink beer and play PS3.

That's cool. You're like the perfect girlfriend! Ha-ha, I have it all, don't I? But you wouldn't like it when I hog the sofa and play all the time.

What do Polish girls have that English girls don't? A sexy Polish accent and that Slavic look.

What tricks will you take home to show the Polish girls? I can down a pint of beer properly now and I can swear in English. I can say "f**k" in bed which I didn't know before and that can be very useful!

How would you describe your dancing – do your boobs get in the way? It's a very stupid, crazy dancing style. My arms spin around, I jump and bounce and, yes, my boobs do sometimes pop out but it's OK. It's fun, though!

If a bloke tries to dance with you, how should he act – up close and personal, or keep his distance and go crazy? None of that stuff, really. I don't like meeting guys in clubs, it's not my sort of scene. I prefer to meet them somewhere nicer.

So where would you meet men then? I don't normally look, to be honest! They normally find me! ➡

I'd love to get my boobs out on a footy pitch!"

KITTY!

Hi Kitty! Did you know an anagram of your name is "Leaky t*t"? Oh God, no way! That sounds really cool! Imagine if it was Tango that was coming out, that'd be great. I'd be on my own nipples all the time, sucking that stuff down!

Whoa there! If you could ride any animal, what would you choose? A killer whale. I love them!

Would you like it if a bloke donned a killer whale outfit at a fancy-dress party? Yeah, I would, definitely. I think he'd look really cute.

Where's your favourite place to get your boobs out? I'd love to get them out on a footy pitch. I even phoned up a local side to ask if I could run across the pitch during a game but they wouldn't let me, even though I work for *Nuts*.

If we offered to pay your fine, would you streak at Wembley for our readers? Yes, I would. But you'd better bail me out or else!

You told us you once did the deed on top of a church – have you topped that yet? No, I haven't. I'm a little less adventurous these days and just have really naughty sex in the bedroom instead.

Tell us something about yourself that nobody else knows. I'm a big poker player. I'm obsessed and I play online all the time.

Have you ever played strip poker? No, I think I need to be a better player before I start doing that.

Who would you love to have a threesome with? Robert Pattinson, the lead vampire from *Twilight*, and Lindsey Strutt. Between us, we could make him blush! ➡

EMILY!

Hi Emily! Are you funny? Can you tell us a joke? I'm quite funny but I don't really do jokes, to be honest. I just do dozy stuff and come out with stupid things that seem to make people laugh at me more then anything. My friends call them "Emilyisms". I seem to always put my foot in it really badly.

Give us an example. I was talking at work the other day about how horrible this perfume was and how anyone who wore it was totally minging, then this woman went, "I wear it!" – it was so embarrassing!

You're part of Eva's Utterly Brilliant Boobs. What's the most brilliant thing about big boobs? I think they make me look more womanly and very curvy. They're very good for a low-cut top as well! And they seem to get you a few free drinks, ha-ha!

How many countries have you got your boobs out in? Are you a well-travelled girl? I'm not that well-travelled, but I've just got back from Ibiza, which was a perfect place for a topless holiday. I always sunbathe topless – nobody likes white boobs do they? I'd say I've only had my boobs out in... probably five countries. But there's always room for more!

Is there ever a bad time or place for big boobs? A few, yeah. When I lean over people, I sometimes knock them in the face! I've done that loads when I reach across people, ha-ha! Women don't seem to like it, but the blokes don't mind as much for some reason.

Summer's over and it's going to be winter soon. Do you always get a kiss on New Year's Eve? New Year's Eve is such a nice time to spend with someone, and you've got to have a good snog!

If it's midnight on New Year's, what's the best way to approach someone for a smooch? Just go up and approach her! By midnight, everyone will have had a few drinks, so just go up and talk to her and go in for the kill. If it turns out she doesn't like you, you'll soon find out anyway, ha-ha! ➡

HI PETA!

Hi Peta! You helped us kick off summer by removing ladies coats for them – will you be out there now giving them back now it's autumn? Yes, I'll be grabbing women going past and forcefully making them put their clothes back on! I'll have to be careful putting scarves on, though – they might think I'm attacking them!

Do you have a reputation for that? No, no, I'm not a strangler!

What's good about having brilliant boobs? It's funny how people love boobs so much. I just think they look nice and they can be fun.

Do you have trouble finding clothes that go over your utterly brilliant boobs? A bit, but I dress oddly. I often have quite baggy tops on. If you want a top that fits and doesn't make your boobs fall out, it can be a bit tricky!

You share your name with an animal rights group – do you like animals? Yeah, I love animals! What's my favourite? A polecat. They're a bit like a weasel. I just think they're amazingly bendy, like ferrets. They're cool as well. Did you know ferrets have hollow fangs? They can bite into an egg and suck out what's inside with their teeth without breaking it. They're like little straws.

Good ferret knowledge. If the animal rights people, PETA, wanted you to be their sexy spokesperson, would you do it? Yeah, we do share a name!

Is it weird being really gorgeous? I'd struggle to say that I walk around all day thinking, "I'm gorgeous" because I see myself in the morning. I find it strange when anyone knows who I am – I'm a bit like, "Whoa!"

What's your favourite film? I watched *Inglourious Basterds* the other night. It was amazing! I also love *Napoleon Dynamite*, that's a firm favourite of mine.

Who's your favourite leading lady in the cinema? I'm not a big fan of actresses in general – the ones I've met can be quite annoying – but Megan Fox is sexy. I quite like Meryl Streep but I haven't seen *Mamma Mia!*, and I refuse to!

Good! You're more or less a bloke in a woman's body. I'm a rubbish girl! I have a theory I'd like to share with you, though. It's easier for a blonde to be pretty, but harder for her to be stunning. It's harder for a brunette to be pretty, but easier for her to be stunning.

Where do you fit into that? I can be quite a plain brunette at times, I think. I can tell you're impressed with my theory. You can claim it for your own, if you like! ➡

LINDSEY!

Hi Lindsey! It's nearly winter — will you be putting your boobs away until summer? No, my boobs don't hibernate! I'll put a scarf around my neck to keep them a bit warmer in the cold but they won't go away. What's the point in having boobs if you hide them away?

Whose boobs were the most brilliant on the shoot today? I always love Peta's boobs, they're so pert it's unreal! She's got the best boobs ever, I reckon. Whenever we have a shoot, we always compare boobs, but whenever I see Peta's, I just think, "Oh my God! They point to the sky!" Then, of course, I have to ask her if I can have a quick feel.

Would you ever have a cast of your boobs done, to celebrate them? I'd love to have a cast of my boobs. I think I'd probably quite like the feel of it being papered on and having it smeared on my boobs!

What was the last thing that made you laugh? I was out with the girls and I was drinking champagne and wine mixed together. We were quite drunk and my friend kept going, "It's 'chine'. Champagne and wine, we're drinking chine." It was simple but it made me laugh for three days.

What was the last really embarrassing thing you did? I was on holiday in Portugal and the villa we were in backed on to a golf course. I was walking to the pool in just my knickers and a load of old golfers saw me. They looked like they were going to pass out. I ran off!

Tell us something that would surprise *Nuts* readers. I'm quite a weird girl. When I'm out, I'll just wander off and talk to strangers and even end up having a kebab with them at the end of the night! ■
